

## The BFL® Light

**Non-Dim with Sixteen 55 watt Lamps**

The LightTech BFL® is a location fixture to illumimate large targets such as automobiles, and can do so without large and heavy generators required for HMIs. The BFL® can be operated from any 20 amp outlet. lamps are available in 3000 degree Kelvin for showroom work, or with 5500 degree Kelvin daylight lamps, the BFL® is great for outdoor shoots.
